

## CONTINENTAL SCALE

### PERMANENT TOTAL DISABLEMENT (definite and incurable lesions)

Total and irrecoverable loss of sight of both eyes .....	100%
Loss of both arms or both hands .....	100%
Complete and permanent deafness of both ears of traumatic origin .....	100%
Removal of the lower jaw .....	100%
Permanent loss of speech of traumatic origin .....	100%
Loss of one arm and one leg .....	100%
Loss of one arm and one foot .....	100%
Loss of one hand and one foot .....	100%
Loss of one hand and one leg .....	100%
Loss of both legs .....	100%
Loss of both feet .....	100%

### PERMANENT PARTIAL DISABLEMENT (DEFINITE AND INCURABLE LESIONS)

#### ➤ HEAD

Loss of osseous substance of the skull in all its thickness:

- surface of at least 6 sq. cm.....	40%
- surface of 3 to 6 sq. cm.....	20%
- surface of less than 3 sq. cm.....	10%
Partial removal of the lower jaw, rising section in its entirety or half of the maxillary bone .....	40%
Loss of one eye .....	50%
Complete and permanent deafness of one ear .....	30%

#### ➤ UPPER LIMBS

	Right	Left
Loss of one arm or one hand .....	60%	50%
Considerable loss of osseous substance of the arm .....	50%	40%
Total paralysis of the upper limb .....	65%	55%
Total paralysis of the circumflex nerve .....	20%	15%
Shoulder ankylosis .....	40%	30%
Elbow ankylosis:		
- in favourable position (15 degrees round the right angle).....	25%	20%
- in unfavourable position .....	40%	35%
Extensive loss of osseous substance of the two bones of the forearm .....	40%	30%
Total paralysis of the median nerve.....	45%	35%
Total paralysis of the radial nerve at the torsion cradle .....	40%	35%
Total paralysis of the forearm radical nerve.....	30%	25%
Total paralysis of the hand radical nerve .....	20%	15%
Total paralysis of the cubital nerve.....	30%	35%
Ankylosis of the wrist in favourable position (straight and in pronation) .....	20%	15%
Ankylosis of the wrist in unfavourable position ( flexion or strained extension or supine position) .....	30%	25%
Total loss of thumb .....	20%	15%
Partial loss of thumb (ungula phalanx) .....	10%	5%
Total ankylosis of thumb .....	20%	15%
Total amputation of forefinger .....	15%	10%
Amputation of two phalanges of forefinger.....	10%	8%
Amputation of the ungula phalanx of forefinger .....	5%	3%
Simultaneous amputation of thumb and forefinger .....	25%	20%
Amputation		
Amputation of two finger other than thumb and forefinger .....	12%	8%
Amputation of three fingers other than thumb and forefinger.....	20%	15%
Amputation of four finger including thumb .....	45%	40%
Amputation of four finger excluding thumb.....	40%	35%
Amputation of median finger .....	10%	8%
Amputation of a finger other than thumb, forefinger and median .....	7%	3%
